

Package ‘palettesForR’

July 23, 2025

Type Package

Title GPL Palettes Copied from 'Gimp' and 'Inkscape'

Version 0.1.2

Maintainer Francois Rebaudo <francois.rebaudo@ird.fr>

URL <https://github.com/frareb/palettesForR>

Description A set of palettes imported from 'Gimp' distributed under GPL3 (<<https://www.gimp.org/about/COPYING>>), and 'Inkscape' distributed under GPL2 (<<https://inkscape.org/about/license/>>).

License GPL-2

LazyData TRUE

RoxygenNote 6.1.1

Suggests knitr, rmarkdown

NeedsCompilation no

Author Francois Rebaudo [aut, cre],
Gimp [cph] (copyright holder for palettes imported from Gimp),
Inkscape [cph] (copyright holder for palettes imported from Inkscape)

Android_gpl

Palette Android_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Android_gpl

Format

A vector of length 15

Source

<https://inkscape.org>

<https://www.gimp.org>

Bears_gpl

Palette Bears_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Bears_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Bgold_gpl*Palette Bgold_gpl*

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Bgold_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Blues_gpl*Palette Blues_gpl*

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Blues_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Borders_gpl

Palette Borders_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Borders_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Browns_gpl

Palette Browns_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Browns_gpl

Format

A vector of length 22

Source

<https://inkscape.org>

<https://www.gimp.org>

Caramel_gpl

Palette Caramel_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Caramel_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Cascade_gpl

Palette Cascade_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Cascade_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

China_gpl

Palette China_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

China_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Coldfire_gpl

Palette Coldfire_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Coldfire_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Cool_gpl

Palette Cool_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Cool_gpl

Format

A vector of length 8

Source

<https://inkscape.org>

<https://www.gimp.org>

Cranes_gpl

Palette Cranes_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Cranes_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Dark_gpl

Palette Dark_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Dark_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Default_gpl

Palette Default_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Default_gpl

Format

A vector of length 23

Source

<https://inkscape.org>

<https://www.gimp.org>

Echo_gpl

Palette Echo_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Echo_gpl

Format

A vector of length 27

Source

<https://inkscape.org>

<https://www.gimp.org>

Ega_gpl

Palette Ega_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Ega_gpl

Format

A vector of length 240

Source

<https://inkscape.org>

<https://www.gimp.org>

Firecode_gpl

Palette Firecode_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Firecode_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Gold_gpl

Palette Gold_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Gold_gpl

Format

A vector of length 102

Source

<https://inkscape.org>

<https://www.gimp.org>

Grayblue_gpl

Palette Grayblue_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Grayblue_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Grays_gpl

Palette Grays_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Grays_gpl

Format

A vector of length 31

Source

<https://inkscape.org>

<https://www.gimp.org>

GrayViolet_gpl	<i>Palette GrayViolet_gpl</i>
----------------	-------------------------------

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

GrayViolet_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Gray_gpl	<i>Palette Gray_gpl</i>
----------	-------------------------

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Gray_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Greens_gpl

Palette Greens_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Greens_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Hilite_gpl

Palette Hilite_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Hilite_gpl

Format

A vector of length 170

Source

<https://inkscape.org>

<https://www.gimp.org>

Inkscape_gpl

Palette Inkscape_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Inkscape_gpl

Format

A vector of length 431

Source

<https://inkscape.org>

<https://www.gimp.org>

Khaki_gpl

Palette Khaki_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Khaki_gpl

Format

A vector of length 156

Source

<https://inkscape.org>

<https://www.gimp.org>

LaTeX_gpl

Palette LaTeX_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

LaTeX_gpl

Format

A vector of length 136

Source

<https://inkscape.org>

<https://www.gimp.org>

Lights_gpl

Palette Lights_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Lights_gpl

Format

A vector of length 25

Source

<https://inkscape.org>

<https://www.gimp.org>

`MATLAB_gpl`*Palette MATLAB_gpl*

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage`MATLAB_gpl`**Format**

A vector of length 73

Source

<https://inkscape.org>

<https://www.gimp.org>

`Muted_gpl`*Palette Muted_gpl*

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage`Muted_gpl`**Format**

A vector of length 78

Source

<https://inkscape.org>

<https://www.gimp.org>

Named_gpl

Palette Named_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Named_gpl

Format

A vector of length 448

Source

<https://inkscape.org>

<https://www.gimp.org>

News3_gpl

Palette News3_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

News3_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Op2_gpl

Palette Op2_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Op2_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Paintjet_gpl

Palette Paintjet_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Paintjet_gpl

Format

A vector of length 16

Source

<https://inkscape.org>

<https://www.gimp.org>

Pastels_gpl

Palette Pastels_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Pastels_gpl

Format

A vector of length 18

Source

<https://inkscape.org>

<https://www.gimp.org>

Plasma_gpl

Palette Plasma_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Plasma_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Reds_gpl

Palette Reds_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Reds_gpl

Format

A vector of length 177

Source

<https://inkscape.org>

<https://www.gimp.org>

Royal_gpl

Palette Royal_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Royal_gpl

Format

A vector of length 222

Source

<https://inkscape.org>

<https://www.gimp.org>

`showPalette`*Show a palette.*

Description

Show a palette.

Usage

```
showPalette(myPal)
```

Arguments

`myPal` The palette name.

Details

Adapted from <http://www.r-graph-gallery.com/42-colors-names/>

Examples

```
data(Caramel_gpl)
showPalette(myPal = Caramel_gpl)
```

`SVG_gpl`*Palette SVG_gpl*

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

```
SVG_gpl
```

Format

A vector of length 139

Source

<https://inkscape.org>

<https://www.gimp.org>

Tango_gpl

Palette Tango_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Tango_gpl

Format

A vector of length 29

Source

<https://inkscape.org>

<https://www.gimp.org>

Topographic_gpl

Palette Topographic_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Topographic_gpl

Format

A vector of length 191

Source

<https://inkscape.org>

<https://www.gimp.org>

Visibone_gpl

Palette Visibone_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Visibone_gpl

Format

A vector of length 336

Source

<https://inkscape.org>

<https://www.gimp.org>

Volcano_gpl

Palette Volcano_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Volcano_gpl

Format

A vector of length 256

Source

<https://inkscape.org>

<https://www.gimp.org>

Warm_gpl

Palette Warm_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Warm_gpl

Format

A vector of length 7

Source

<https://inkscape.org>

<https://www.gimp.org>

WebHex_gpl

Palette WebHex_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

WebHex_gpl

Format

A vector of length 216

Source

<https://inkscape.org>

<https://www.gimp.org>

WebSafe22_gpl

Palette WebSafe22_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

WebSafe22_gpl

Format

A vector of length 22

Source

<https://inkscape.org>

<https://www.gimp.org>

Web_gpl

Palette Web_gpl

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

Web_gpl

Format

A vector of length 216

Source

<https://inkscape.org>

<https://www.gimp.org>

`Windows_gpl`*Palette Windows_gpl*

Description

A palette in hexadecimal format extracted from the Gimp or Inkscape.

Usage

`Windows_gpl`

Format

A vector of length 31

Source

<https://inkscape.org>

<https://www.gimp.org>
